

Simplify: from click to door

The most efficient
all-in-one e-fulfilment
solution for your e-shop.

Simplify: from click to door

**Simplify makes life easier. Yours and your business'.
Simple as that.**

We take care of your logistic processes so you can focus on what matters to you the most: **growing your business, turning a bigger profit and spending more time doing the things you love.**

Simplify: inbound, storage, packing, shipping

**The most efficient all-in-one e-fulfilment
solution for your e-shop.**

With Simplify you get the complete supply chain management.
No matter where your suppliers are, we bring your products via
land, sea or air, to simplify your day to day business.

And thanks to our streamlined operational process, backed by
years of experience and smart software, we deliver **less hassle,
better lead time and lower costs.**

:benefits

Logistics is crucial but not worth spending more time than necessary. So, here's why you need Simplify:

→ **click to door solution**

from supplier to stock reception &
storage to shipping & returns

→ **optimised costs**

you pay for occupied
storage capacity and only
for what you sell

→ **transport inbound**

one transport supplier for
all your vendors

:benefits

Logistics is crucial but not worth spending more time than necessary. So, here's why you need Simplify:

→ **optimised last mile delivery**
there's no simpler way from click to door
thanks to our partner Innoship

→ **unlimited operational support**
fast scale up and streamlined expansion
to new markets

:processes

How does Simplify's all-in-one e-fulfilment solution work?

: Connect and deliver to us

Connect your business to Simplify in just a few clicks. No matter what e-commerce platform you use, your stocks automatically sync with our system. You can receive or replenish your stock and transport products from all your suppliers to our warehouse, with just one partner.

: Store, pick and pack

With Simplify, you leverage KLG Europe's network: national and international air, land, rail transport for efficient inbound. You get your own warehouse space for storage and, as soon as you receive an order, we start preparing it: picking, packing, labelling and readying for shipment. That means you **minimize your lead times** and **increase customer satisfaction**.

: processes

How does Simplify's all-in-one e-fulfilment solution work?

: Shipping and delivery

Simplify keeps it flexible: you can opt to integrate your own couriers with no extra cost, increased efficiency when shipping and a better & faster service to your customer.

: Returns and claims

The returns process is never easy. That's why we take that off your hands: orders are returned to our warehouse where we can seamlessly restock the items or park them for pending evaluation.

Services: from stock reception to data analytics

You want it simple. They want it now. And we have the solution to get it done.

With Simplify you can outsource your entire supply chain in just a few clicks. Here's a breakdown of the services we designed for your business.

:services

Always in touch

You have continuous access to all inbound transport documents through your dedicated account in our web portal.

ERP integration

We integrate with any ERP systems to streamline and automate operational processes management.

Inbound logistics

Simplify leverages KLG Europe's transport network to your advantage: we facilitate national and international air, land, rail transport for efficient inbound.

: services

Stock inbound

We receive, handle & unpack all of your products and keep them in sync with your e-shop's inventory software.

Stock storage

Pallet space, shelf space, your own individual space – your stock is readily available for all e-fulfilment processes – from picking to reverse logistics.

Order reception

The moment a customer checks out, we receive the order and start the fulfilment process. No time wasted.

:services

Paperless product picking

Our pickers are on it. Aided by an advanced proprietary WMS (Warehouse Management System), our paperless picking process helps them do the job in the shortest time possible and with no risk of losing information.

Custom & Value-Added Services (VAS)

Customers love extras and so do we. You have a wide choice of extra services: customs processing and clearance, co-packing, bundle, special packaging, labelling or re-labelling.

Order packing & labelling

We pack, brand and label the packages according to your instructions to ready them for delivery.

:services

Shipping optimization

Same day, next day, pick-up point or any other shipping options – we leverage Innoship's optimization algorithms to never disappoint.

Shipping choice

You can either integrate your own couriers or choose our one-stop shipping solution. Check out the comparison to compare our shipping solutions.

Order tracking

Filter & search for specific orders, see timeline, get information on any order. Order tracking keeps customers at ease and your logistics at full efficiency.

:services

Returns & reverse logistics

Generating return shipping labels, tracking, processing, quality control and getting returns back into stock – we handle it all so you don't have to worry.

Document management

Branded AWB, invoices, certificates of guarantee or promotionals: can also be covered. We take as much care as you would.

Order packing & labelling

Performance charts, stock notifications, shipment data or daily reports – we collect, organize and present them to you in various formats so you can make dynamic optimizations according to business strategy.
